

Esteemed delegates of the World Health Organization,

My name is Kate Han, and I am a junior at Seoul Foreign School. I am honoured to serve as the President of WHO at CIMUN V, chairing alongside my co-chairs, Yeonjae and Charlotte.

This year's theme, "Global Enviro-Human Protection" refers to prioritising the healthy interaction between the environment with us humans, ultimately promoting a symbiotic relationship between the two. In a world where humans tend to prioritise either one or the other, often at the deprioritised's discomfort, this theme maintains the hope that the prioritisation and comfort of both can be achieved and preserved simultaneously.

With the hope of respecting this theme, at CIMUN V, the World Health Organization will develop resolutions and debate on one pressing issue:
Addressing the health and environmental interlink.

I highly encourage all of you to conduct sufficient research on the agenda prior to the conference to fully benefit from the experience; I promise you: the more you know, the more you will enjoy.

I hope CIMUN V will be a challenging yet friendly opportunity for all of you to grow. I am looking forward to meeting all of you in September!

If you have any questions, do not hesitate to contact me at kateywhan@gmail.com!

Best regards,
Kate Han
President of the World Health Organization
