

Greetings, delegates of the Green Climate Fund (GCF),

I am Jaden Min, a rising sophomore at Chadwick International, and I am honored to serve as the President of GCF at CIMUN.

This year's agenda is "Securing climate finance to adopt mitigation and adaptation technologies worldwide." Climate crisis is occurring at an unprecedented rate, stagnating our lives and thwarting economic growth. As a stakeholder that shares the greatest responsibility in the future, the youths have the necessity to discuss such imminent, crucial topics.

For both beginning and skilled delegates, Green Climate Fund would be a great committee to address emerging social issues such as intellectual property, sustainability, and economic inequality, hence improving critical thinking and public speaking.

While it's good to stay professional and adhere to the rules of procedure, the chairs of GCF would focus more on providing the best learning experience for the delegates. That might sound like 1 on 1 feedback sessions, discussions on position paper, or delegate-paced committee sessions, and the chairs are completely open to all options to support delegates. If you have any questions before or during the conference, please feel free to ask the chairs, and we'll be happy to guide you through your MUN journey.

We'll hope to see you soon in CIMUN 5!

Best regards,
Jaden Min
President of the Green Climate Fund
